Ivan G. McDaniels acting manager of the Commercial club, is gathering data on the flax industry in Oregon, to prepare an article for an eastern magazine, and to also give information to the many inquiries regarding Oregon's new industry. Several photographs were secured at the penitentiary today, and any photographs taken of flax at any time during its growth and during harvest will be appreciated at the commercial club.

A woman living east of the city evidently has an abnormal appreciation of humor, or is mentally a little off. One week ago one of the local undertakers received a telephone message to call for a body near the school house at Mayday. He drove to the location mentioned, but failed to find even a house. Yesterday another undertaker received a like message, resulting in a trip to the same locality. A preacher was also called to the same place on an errand of mercy, and even a taxicab received a hurry up message to call. The party sending the messages was located yesterday and it won't happen any more.

At the last regular meeting of the Commercial club it was voted to hold a live wire meeting once a month, the date not to conflict with the regular meeting. This first live wire gathering will be held Tuesday noon, November 2, at a luncheon to be given Edward F. Trefz, at the Marion hotel. Mr. Trefz comes here as the representative of the United States Chamber of Commerce. He is spending several months in the west, addressing commercial clubs and taking up the matter of foreign markets and endeavoring to induce all commercial clubs to act together in urging laws regarding the business interests of the country.

The second market and sales day will be held next Saturday at the Waring barn, where the sale was held two weeks ago. Entries are coming in at the Commercial club and everything indicates that the sales day next Saturday will be as successful as the one held on the 16th of this month. W. S. Low will superintend and take general management of the market, and H. E. Voorheis will act as auctioneer. To a certain extent, the success of these Saturday market and sales days is in the hands of the farmers. If enough produce, vegetables, farm implements and cattle are brought in to make an interesting market the sales will be continued. Everything is conducted in the interest of the farmer and it is up to the farmer to support these sales.

The 10 day period for posting notices in order to call a special election to vote taxes in road districts may be shortened if the voters of the district are notified personally of the time and place of the meeting, according to an opinion handed down by Attorney General Brown today. In order to vote a special road tax in excess of a six per cent increase over the tax budget of the previous two years it is necessary to post notices for 10 days and then to advertise the intention to vote a special tax for 30 days more. The 30 day period which provides for advertising in the newspapers must not be abridged but the 10 day period is only for notification to the voters to be present at the meeting to vote on whether or not a proposal to vote a tax shall be submitted to the district electors. If it is possible to notify the voters in less than 10 days all of the requirements of law will have been fulfilled if the voters are aware of the meeting, says the attorney general.

A 1,000 Mile Trip With a Dog Team

Seattle, Wash., Oct. 28.—Captain Louis L. Lane, master of the power boat North Star, formerly owned by Explorer Stefansson, is making a 1,000 mile dog team journey from the Arctic coast to Cordova and will arrive in Seattle about November 15, according to a dispatch from Circle City. TOO MANY TEACHERS.

Seattle, Wash., Oct. 28.—Sessions of the Washington Educational association council began here today with the attendance so large it was necessary to utilize two of the biggest churches, the Plymouth Congregational and the First Presbyterian, where duplicate meetings are being held.

One of the first matters disposed of was the determination by the council to introduce a bill in the next legislative year, requiring a higher scholastic standing before certificates are granted in many lines. This is because the field is overcrowded with teachers.

FOR DOJINS EDISON.

Los Angeles, Cal., Oct. 28.—Henry Ford arrived here today and joined Thomas A. Edison in an inspection of the schools of Los Angeles and a motor trip through this city and nearby towns.

Edison's opinions of the things he saw were expressed in a manner characteristically laconic. "Great!" he said, or "fine!"

The trip to San Diego has been postponed until tomorrow so Edison can enjoy the hours planned for him here.

SHE HERDED WILLIE

San Francisco, Oct. 28.—In filing a cross complaint today to his wife's action for divorce, William F. McCormick alleged she built an 18-foot board fence around their place to keep him from seeing fair pedestrians. As this apparently was not effective, she shrouded all windows with oleoth, shutting out light and air, he alleged.

Hired As An Aviator But Could Not Fly

San Francisco, Oct. 28.—Army officers declared today that the court-martial of Lieutenant Colonel Lohis Goddier, judge advocate of the western department of the United States army, probably will be resumed Monday or Tuesday of next week. Resumption of the case hinges on the arrival of Colonel Samuel Reber, in charge of the aviation corps, from Washington. Captain John T. Geary, judge advocate of the court-martial, summoned Reber from the east to explain a number of personal letters which passed between him and Captain Arthur Cowan, head of the army aviation camp at San Diego. Colonel Reber will have to explain to what extent his domination over the aviation camp extended, why he justified a flyer's pay for Cowan, his reasons for rating Lieutenant Patterson as a junior aviation officer with a captain's rank, when Patterson was unable to fly.

Convicted Woman Gets Year In Jail

Seattle, Wash., Oct. 28.—Superior Judge Everett Smith this afternoon sentenced Mrs. Mary E. Lillian, convicted last week of manslaughter after killing Howard Borders, the man alleged to have betrayed and deserted her, to one year in the county jail, but in the event she is to become a mother, her sentence will be automatically concluded a few days before the child is born. All the time she has already spent in jail while awaiting trial will be counted as part of the year to be served. She has been in jail since July 30.

In this competition, all the nine varieties shown may enter but there will be only one prize for the finest bushel.

AUTOS FOR THE POLICE.

Portland, Or., Oct. 28.—Patrolmen on duty in the residence districts of Portland will soon be riding around in luxurious touring cars in their quest for evil doers. The city council today voted to allow an appropriation for the purchase of five automobiles for the use of the bluecoats to remain in Mayor Aibee's budget. The horse riding police probably will be dispensed with.
